

DXT

*the world's first
ambidextrous
ergo mouse*

- Unique design by UK physio/ergonomist team
- Instantly switchable for left- or right-handed use
- Precision grip design (hold it like a pen)
- One model fits almost any hand size
- Relaxed, light-touch grip
- Works intuitively at high resolution
- Excellent for detail work
- Occupies minimal desk space
- Encourages mix of finger, wrist and whole arm movement
